

SMART SECURITY AND CONNECTIVITY SOLUTIONS FOR MODERN CONSTRUCTION SITES

CONSTRUCTION SITE SECURITY

Prevent theft, vandalism, and unauthorized access with rugged, intelligent security systems. Our AI-powered cameras and mobile units keep watch 24/7, even in remote areas or during off-hours.

WHY CHOOSE OUR CONSTRUCTION SECURITY SOLUTIONS:

- 24/7 AI-driven surveillance and alerts
- Rapid deployment: no wiring or infrastructure needed
- Works in any weather or location
- Deters theft and vandalism before it happens
- Backed by live remote monitoring and support

MONITORING SERVICES

Gain complete visibility across every job site. Our live remote monitoring team and True AI technology detect real threats in real time, ensuring your project stays secure without false alarms.

HOW OUR AI MONITORING WORKS:

- True AI Detection: distinguishes between real threats and harmless motion
- Live Human Verification: our team confirms and responds to alerts instantly
- Multi-site Visibility: centralized monitoring for all your job sites
- Instant Notifications: get text, call, or app alerts when incidents occur

JOB SITE CONNECTIVITY

Keep your teams and devices online anywhere. Our secure job site Wi-Fi networks enable seamless communication, project management, and video streaming with no existing infrastructure required.

BENEFITS OF OUR JOB SITE CONNECTIVITY SOLUTIONS

- Secure Wi-Fi coverage for crews, offices, and cameras
- Works anywhere – even off-grid or temporary sites
- Supports HD video streaming and cloud uploads
- Scalable bandwidth for any project size
- Easy setup and remote management
